APPLICATION GUIDELINES
Print Capability

ALPHA WS-809 is formulated for both standard and fine feature pitch stencil printing, at print speeds between 1"/sec (25 mm/sec) and 6"/sec (150 mm/sec) with stencil thicknesses of 5 mil (0.125 mm) to 6 mil (0.15 mm), particularly when used in conjunction with ALPHA Stencils. Blade pressures should be between 1 to 2 lbs/in (0.16 to 0.34 kg/cm), depending on the print speed. The higher the print speed employed, the higher the blade pressure that is required.

| <ul style="list-style-type: none"> Refrigerate to guarantee stability @ 0 to 10 °C (32 to 50 °F) Paste can be stored for 2 weeks at room temperature up to 77 °F (25 °C) prior to use. When refrigerated, warm-up paste to room temperature for up to 4 hours. Paste must be ≥66 °F (19 °C) before processing. Verify paste temperature with a thermometer to ensure paste is at 66 °F (19 °C) or greater before setup. Working range: 19 to 29 °C on the stencil. Do not remove worked paste from stencil and mix with unused paste in jar. This will alter the rheology of the unused paste. These are starting recommendations and all process settings should be reviewed independently. 6 month refrigerated shelf-life | <p>Stencil: Recommend ALPHA CUT or ALPHA FORM stencils at 0.125 to 0.150mm (5-6 mil) thick for 0.4 to 0.5mm (0.016" or 0.020") pitch. Stencil design is subject to many process variables. Contact your local ALPHA site for advice.</p> <p>Aperture Design: ALPHA WS-809 may be printed using various aperture designs. ALPHA 2007 is the recommended de-foamer The flux residues from Alpha WS-809 are water cleanable after two paste reflow cycles Recommended rinse temperature 120 to 160 °F (49 to 70 °C) No special nozzle configurations Effective residue cleanability up to 48 hours after reflow. This allows maximum process flexibility and can eliminate an extra cleaning step in double- sided reflow processes Ionic contamination levels passes IPC J-STD 001D requirement (< 10µg/in²) Typical result is <3 µg/in² attained with heated solution tested with an Ionograph. |
